WINES FROM THE HEART OF ROMAGNA OUR VINEYARDS IN THE HILLS OF FORLÌ AND IMOLA

The winery comprises two separate estates, one in the hills near Imola, the other in the hills of Forlì. The winery's total area amounts to some 55 hectares, all of it planted to vines. The winery's main facilities and administration are in the centre of the Imola estate, which lies in the Tre Monti (Three Mountains) area constituted by Imola's first band of hills. At about 100 metres' elevation, this property covers some 30 hectares, all in vines, with the vineyards facing southeast. Soils are primarily silty-clay, and quite dense. Soil studies confirmed what years of experience had revealed: the specific Imola vineyard sites and their soil profile make them particularly well-suited for the production of white-wine grapes.
